

Optium® v. Static Shield™ Comparison Chart

OUR COLLECTION, CREATED FOR YOUR COLLECTION

Now A&C Plastics has more glazing options than ever before for framing and display applications. Our collection of high-performance acrylic glazing has expanded to meet your challenging aesthetic and conservation needs and provides alternatives to conventional glazing materials used for protecting and displaying works of art.

RECOMMENDED FOR

- **Anti-reflective** display requirements for optimal viewing
- **Anti-static** applications including friable media (charcoals and pastels), fragile surfaces, lightweight papers, textiles
- **Abrasion resistance** from minor scratches associated with frequent cleaning, high traffic areas, and or traveling
- **UV protection** for the display of light-sensitive objects where light is not filtered at the source
- **Crystal clear** transmitted color when typical yellow color cast from existing UV-filtering acrylics is objectionable
- Structurally sensitive frames, large works, and/or when glass is too heavy — **Half the weight of glass**
